

Green Cell PRO Battery for Apple Macbook Air 13 A1369 A1466 / 7,6V 7200mAh

P/N: AP14PRO
EAN: 5902719426919

Product description:

Green Cell batteries stand for high reliability due to a longer service life and battery life than original batteries.

The installation is very easy and the battery is one hundred percent compatible with the electronics and software of the laptop. High-quality manufacturing of the lithium-ion cells, modern control electronics and the housing made of ABS plastic ensure maximum safety and robustness. The highly advanced technology protects the battery against overload, short circuit, deep discharge and overheating.

The PRO version is equipped with several battery cells from Samsung and enables an even longer operating time of the notebook. The top quality of Green Cell is reflected in consistently positive ratings and reviews.
