DYNAMIC REPORTS

ADVANTAGES

Time saving

Up to 50% time savings, thanks to automatic processing

Conversational

Dynamic forms can respond to the specified answers and suggest context-sensitive content

Unity

Form fields specify the data structure and mandatory fields

Further processing

A data can be passed and processed automatically, e.g. to CRM, ERP, or e-mail systems

Offline-capable

Without an Internet connection, data is placed in a queue that is automatically processed

SMART OFFLINE DOCUMENT LIBRARY

USE CASES

1

The entire product range and all documents are always with you, without loading time

2

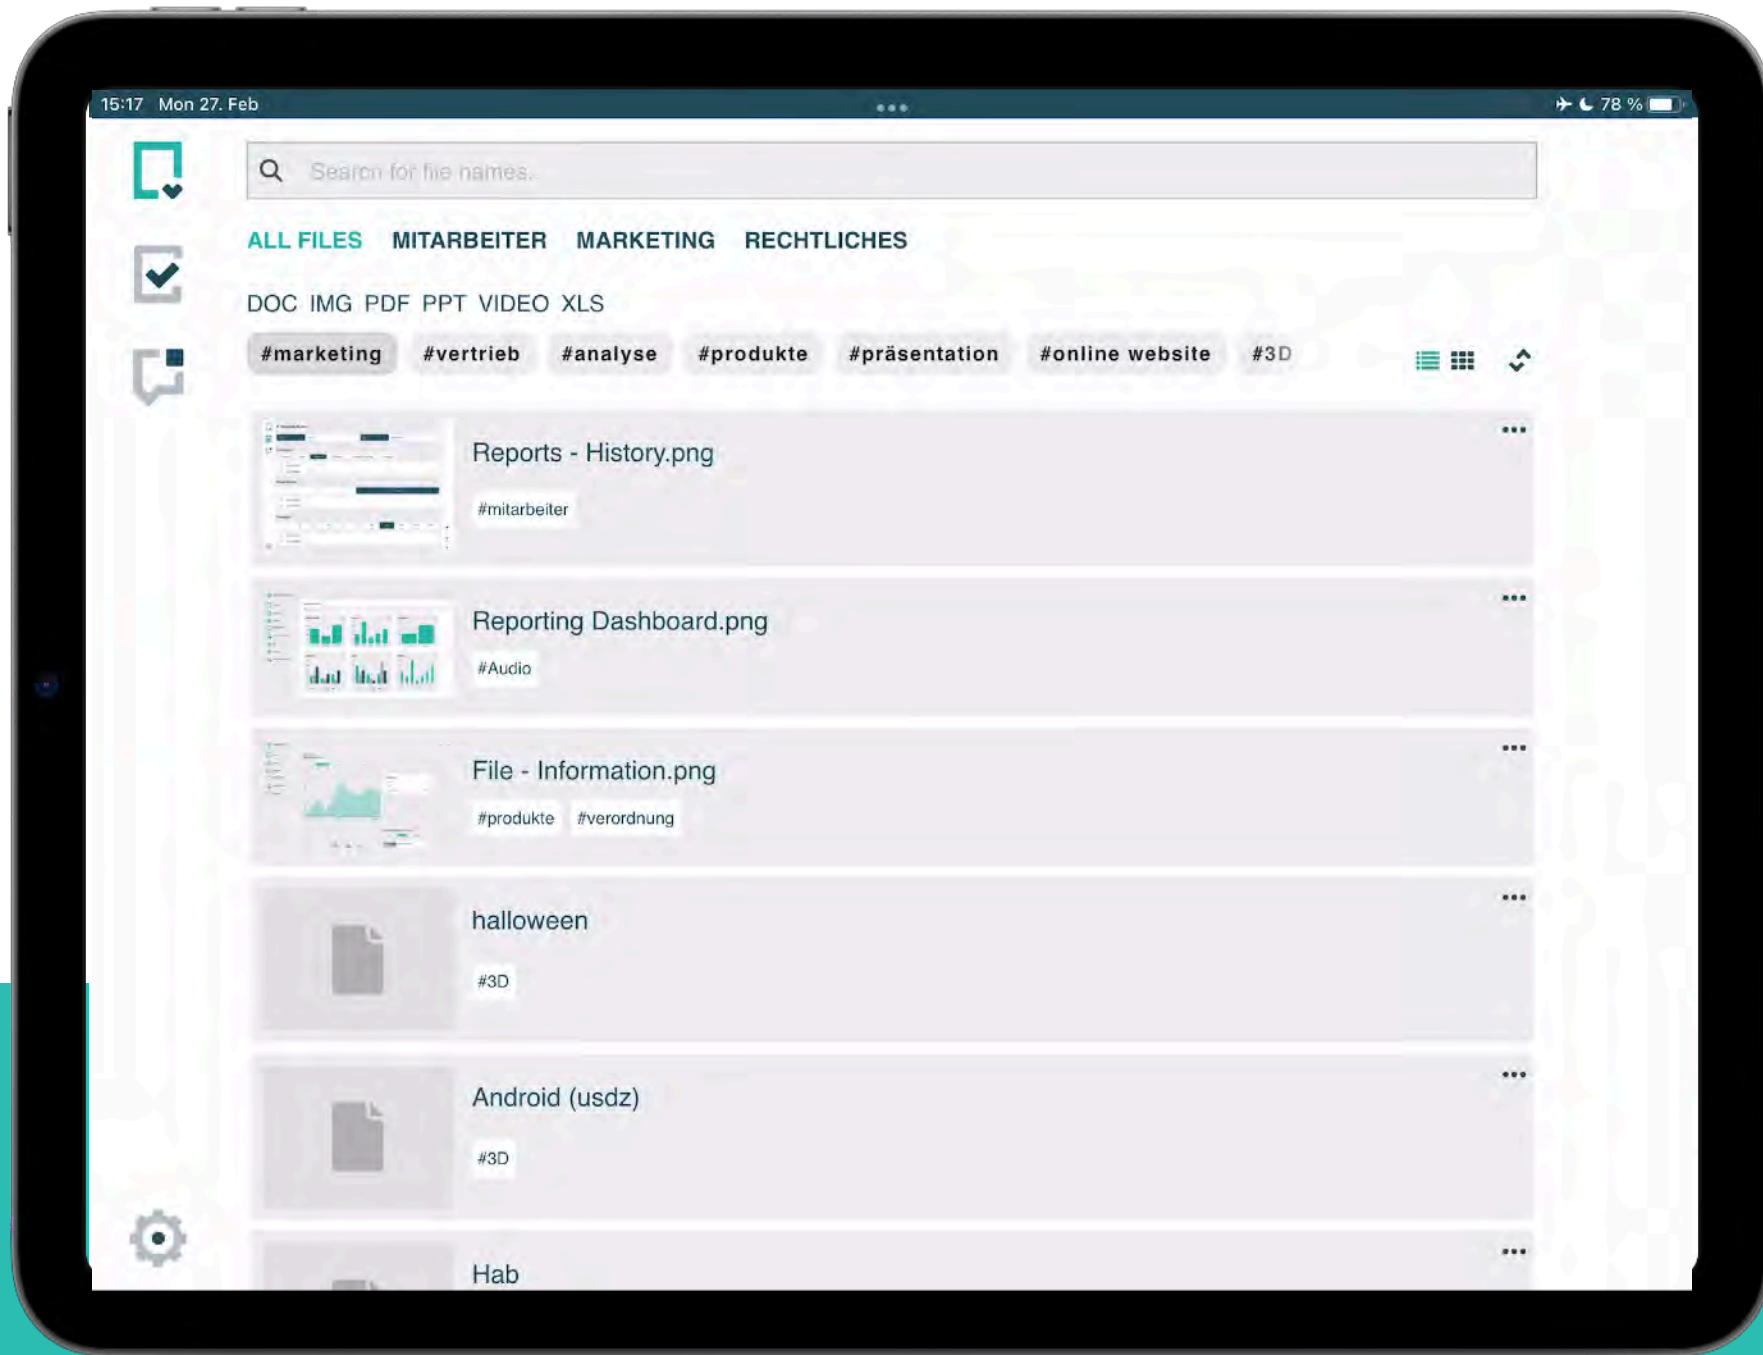

Keywording and sorting for conversational situations

3

Easy sharing, by giving external download links

4

The document library can be included as a widget in the web page

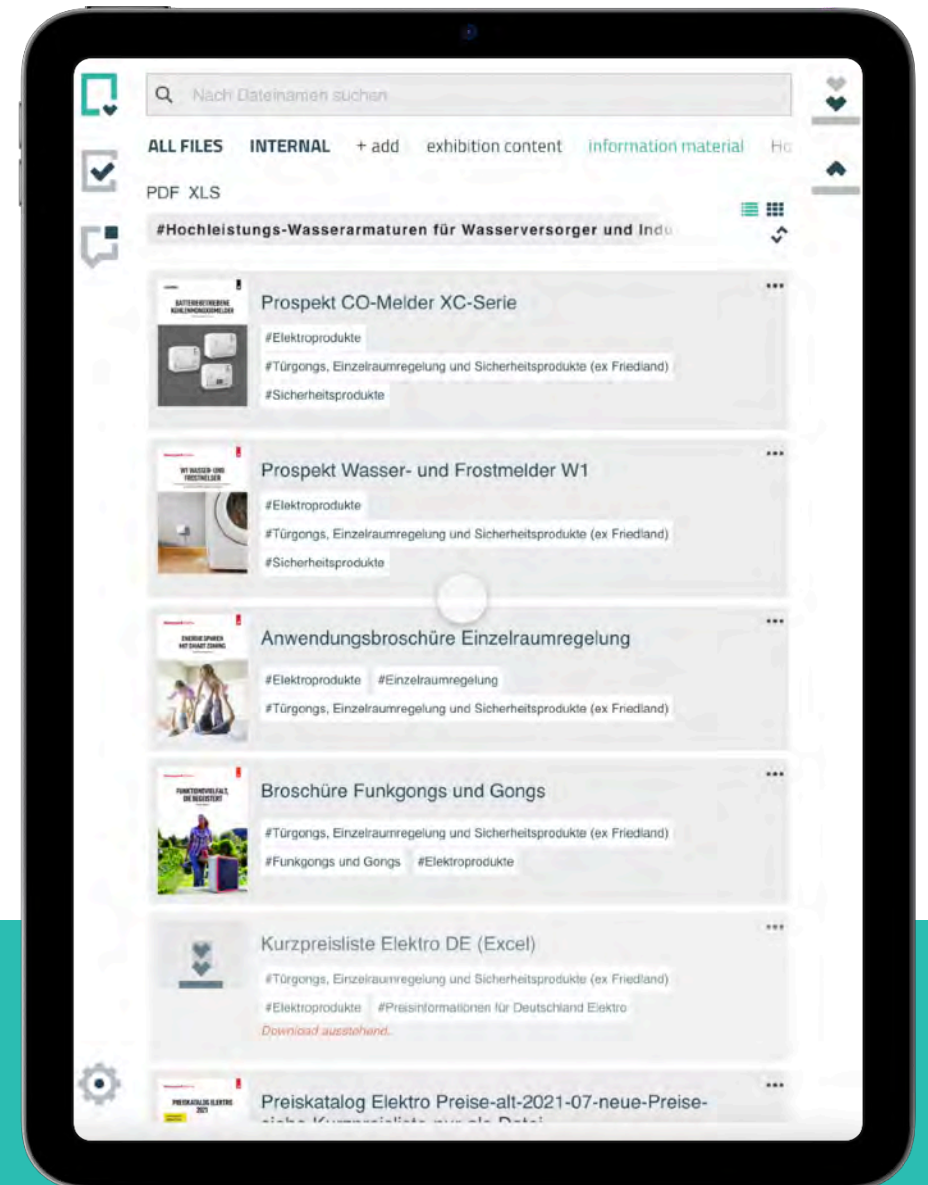

COLLECTIONS

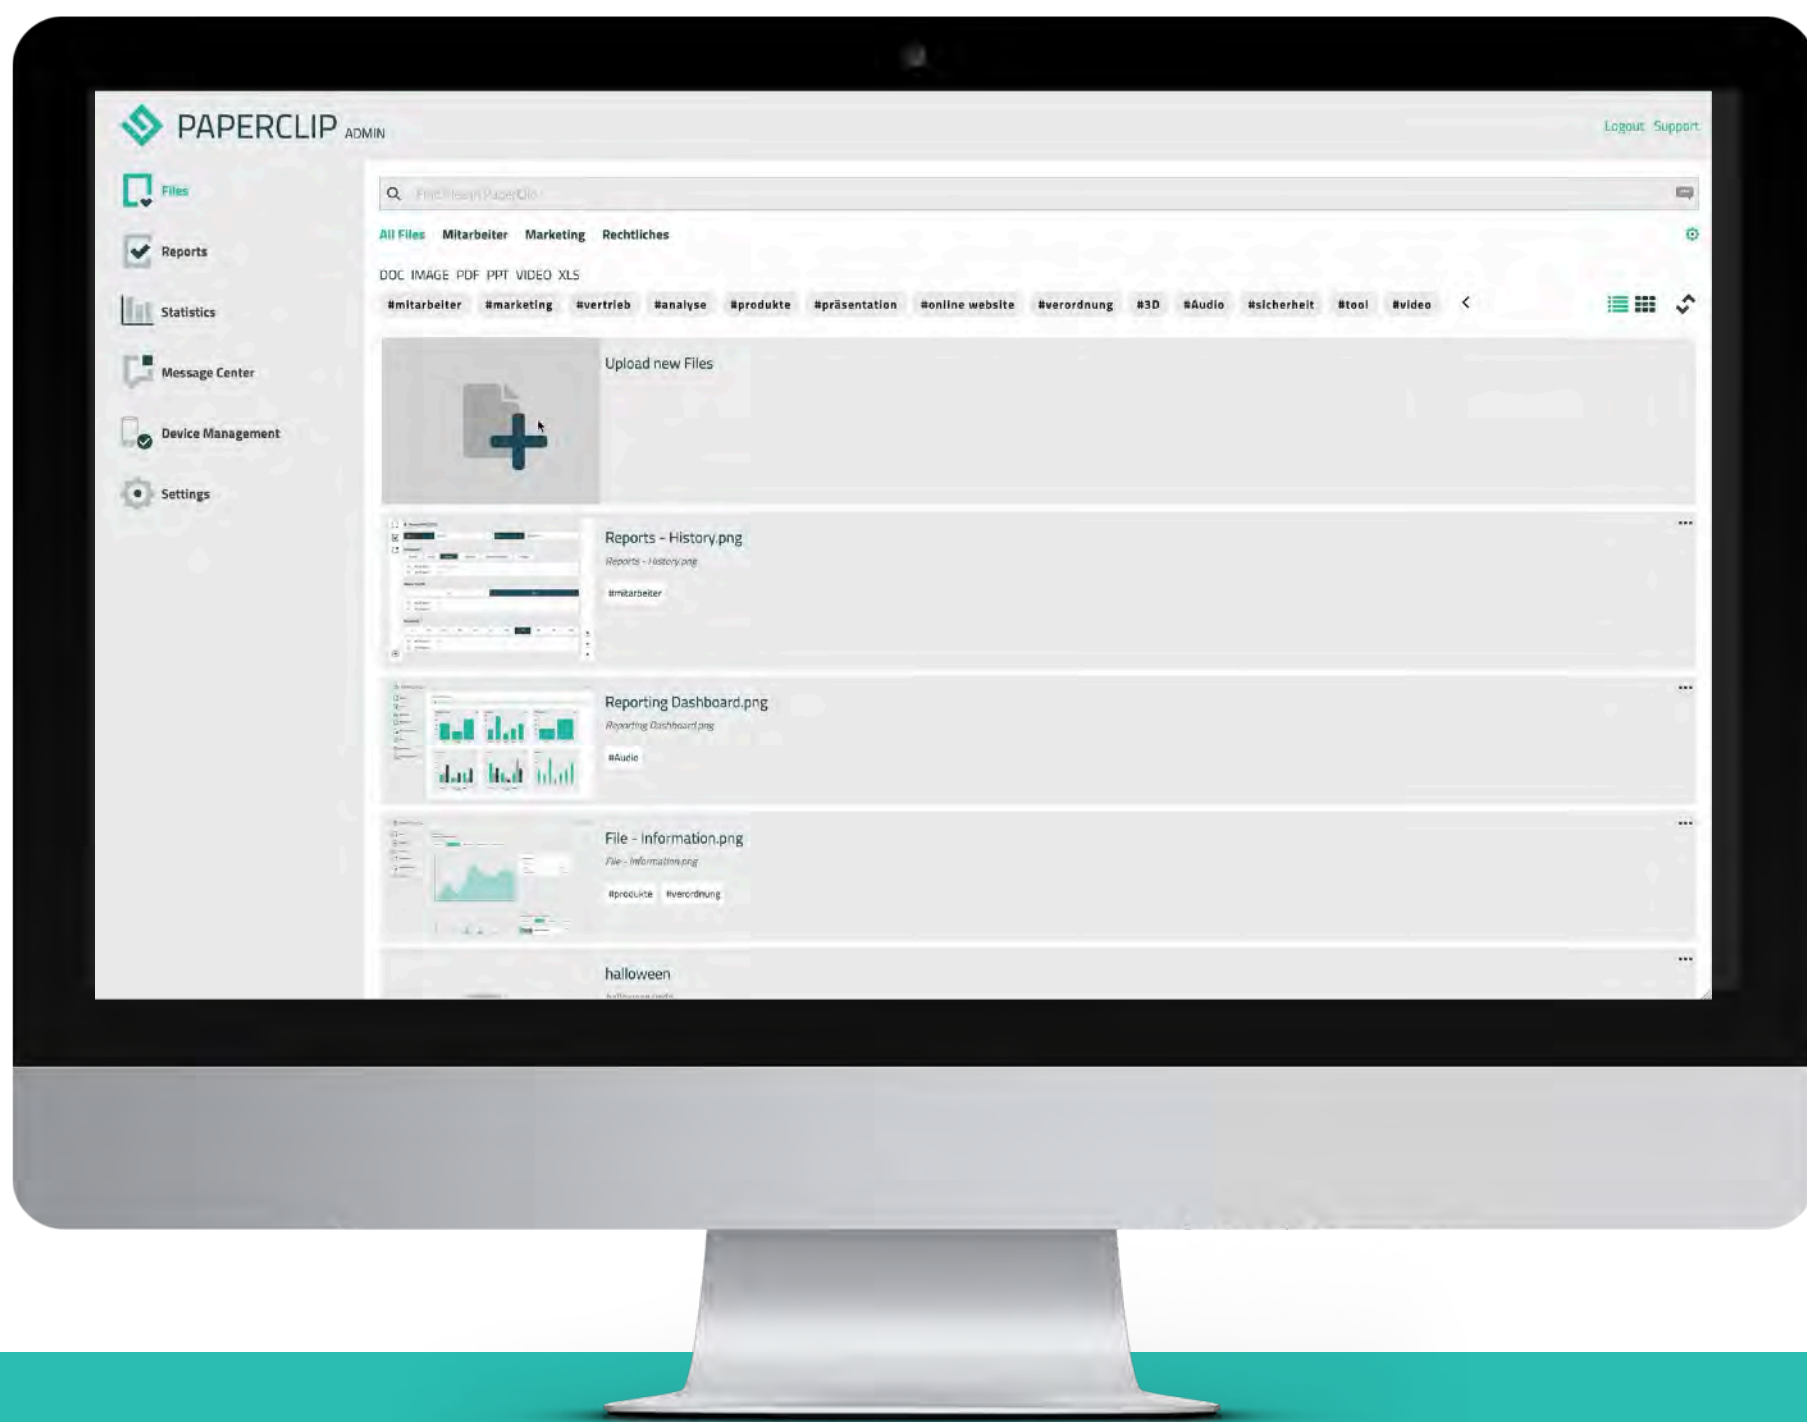

Add files to collections and share with customers

01. Add different files to a collection

02. Share with customers directly in the app

03. Share via link or send by mail or post

SMART OFFLINE DOCUMENT LIBRARY

ADVANTAGES

Cost savings

Reduction of printing costs and paper consumption

Feedback from users

Users can provide feedback on the content

Time saving

Acceleration of the document search

DMS

Full-featured document management system, with website API

Access

Unlimited access in terms of time and location (practical for employees in the field or home office)

CONTACT DATABASE AND ACTION HISTORY

USE CASES

1

Search for customer data from anywhere and without an Internet connection

2

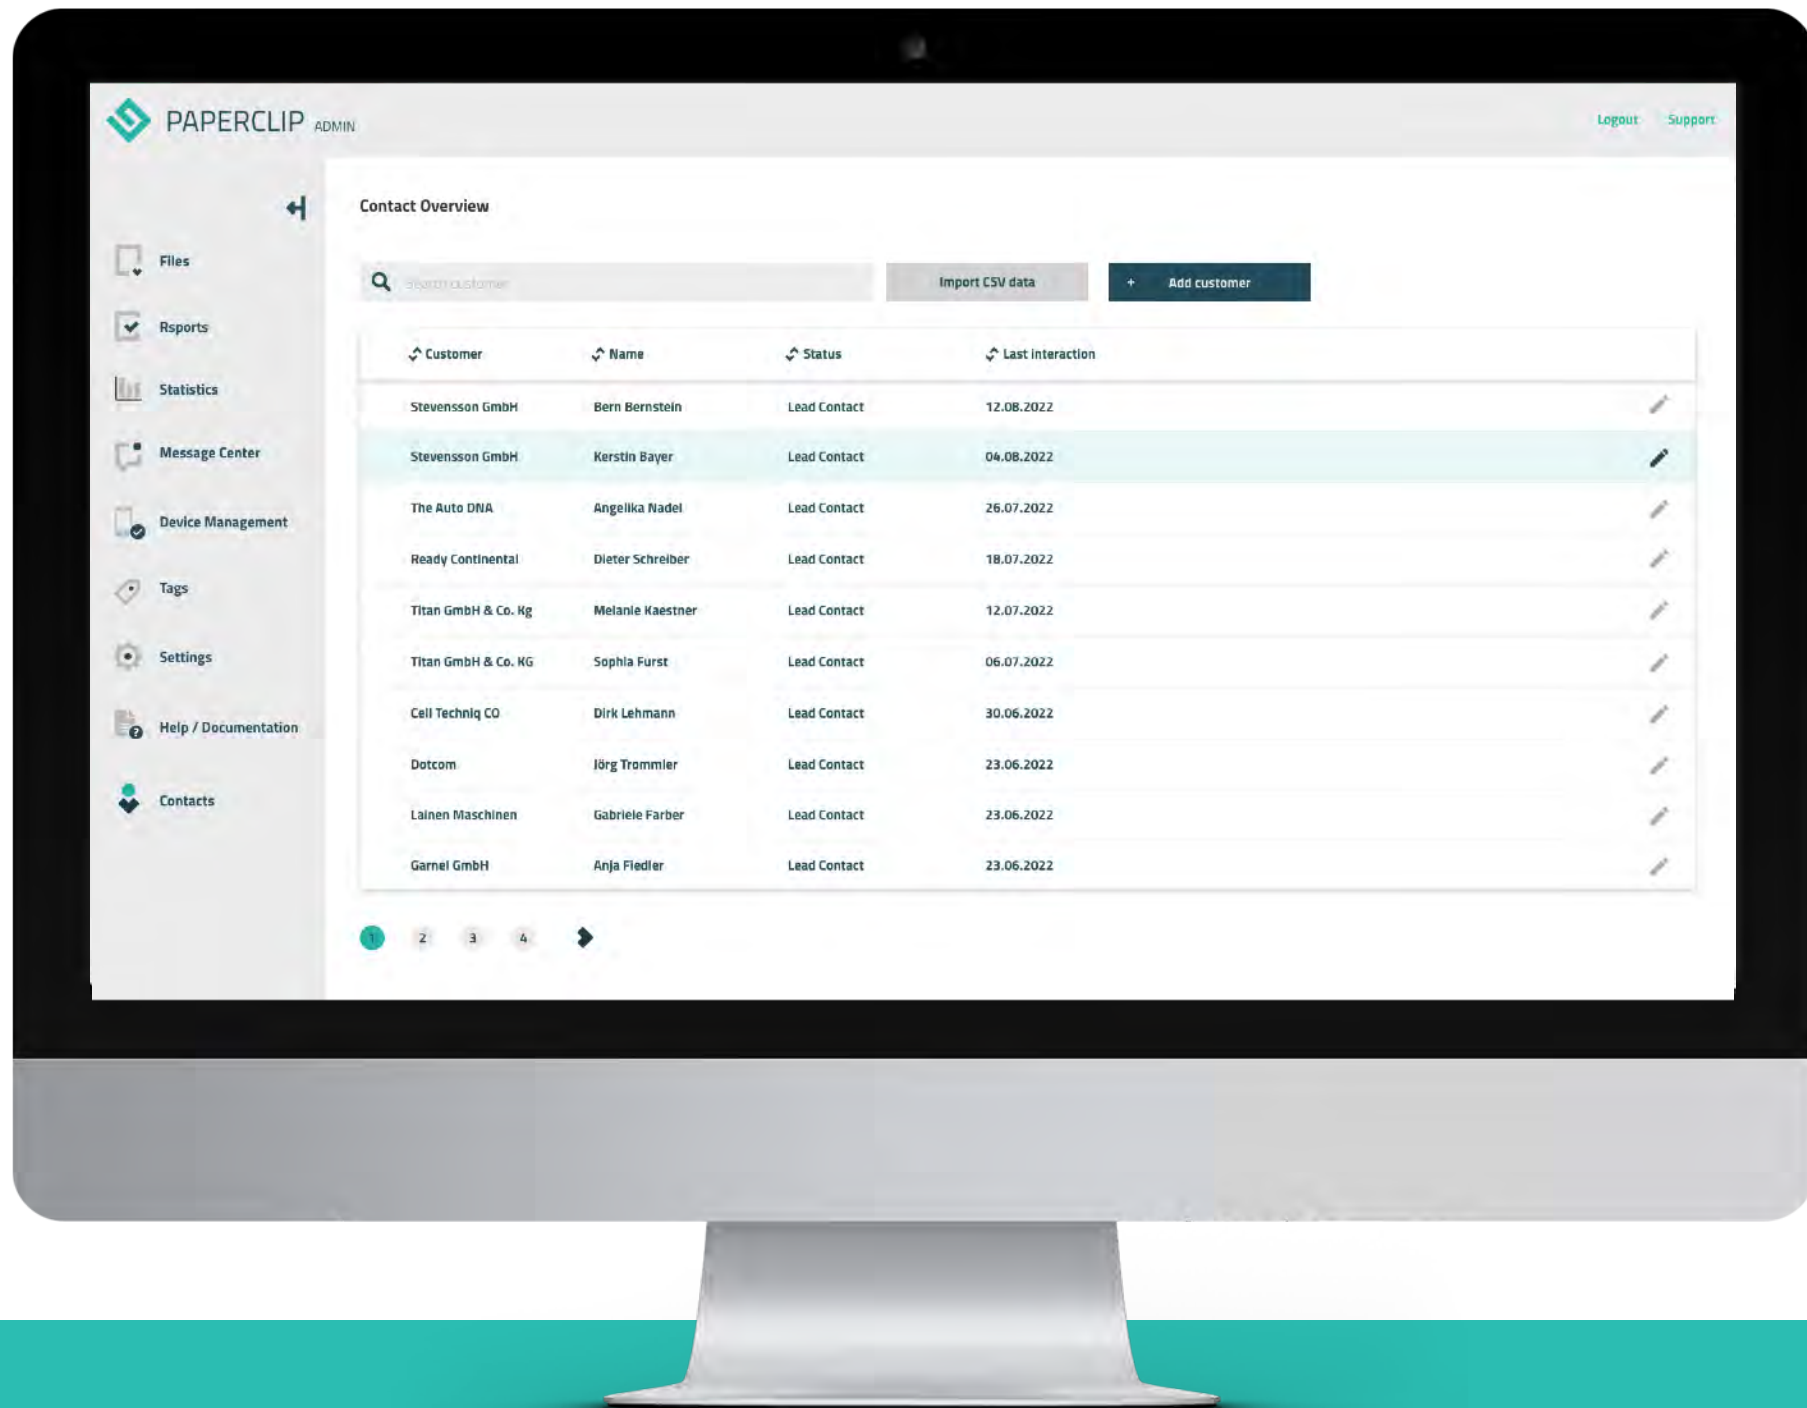

What was the customer interested in at the last trade fair and what are they interested in today?

3

Automatic, daily sync with the company CRM customer database

4

The automatic address-check scans addresses worldwide for validity and can automatically complete them

Contact Overview

CONTACT DATABASE AND ACTION HISTORY

ADVANTAGES

High quality data

By checking the validity of address data all over the world.

GDPR Compliant

Data processing according to European data protection regulations.

Better customer knowledge

All data is in one place, centrally managed and synchronized with CRM.

Invisible for us

All customer data is encrypted and invisible even for Pixelstein.

Offline capability

Unlimited access in terms of time and location (practical for employees in the field or home office)

MARKETING & AUTOMATION

USE CASES

1

After a meeting, the customer automatically receives a summary by e-mail, including all the documents discussed

2

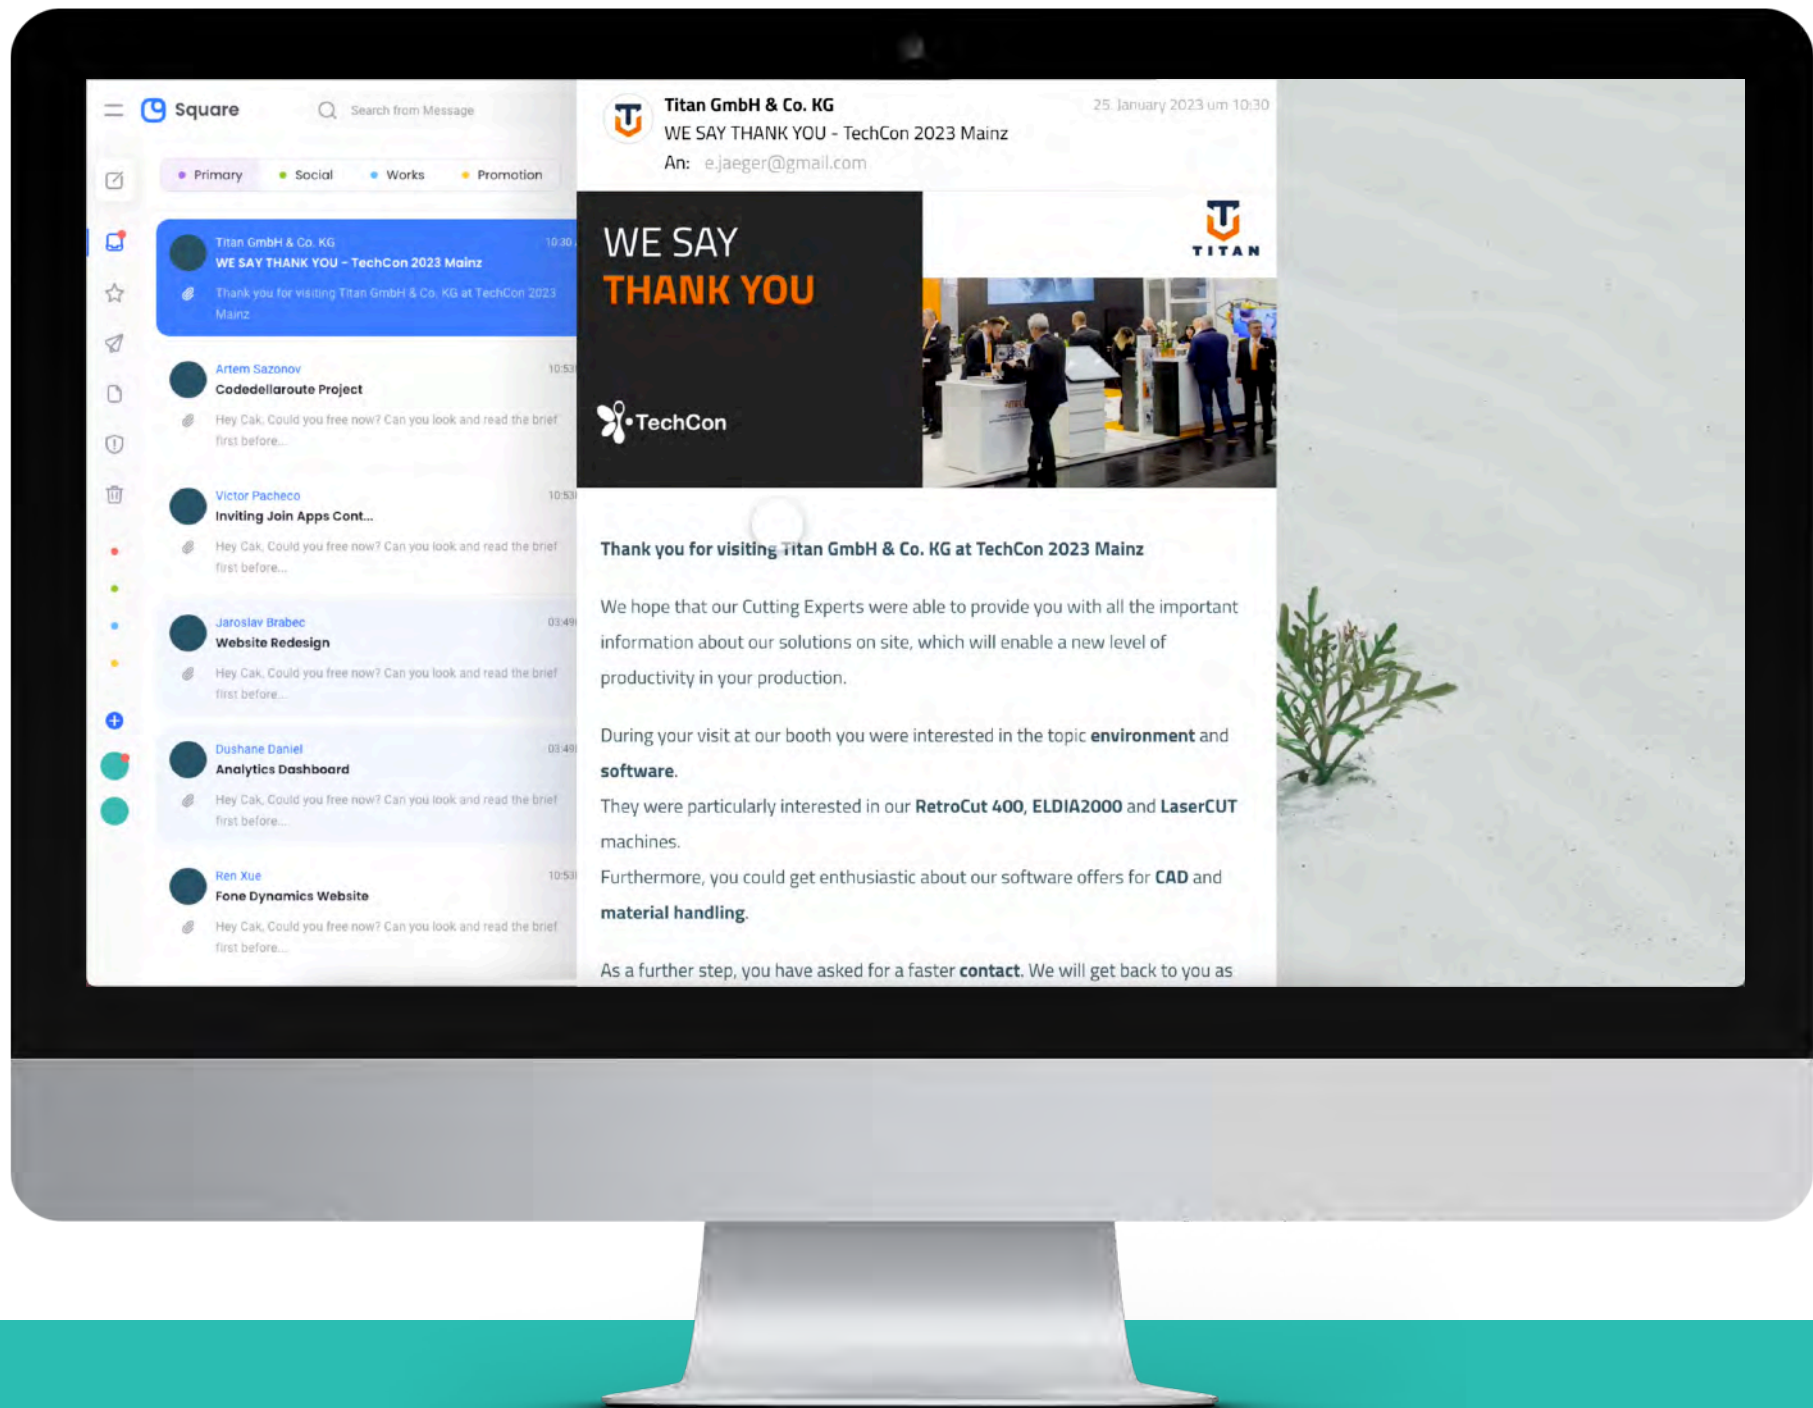

Customers can be added to mailing campaigns on the fly

3

The GDPR Double Opt-In process starts from the trade fair report

4

Upon receipt of a visit report, all relevant data is passed on to HubSpot

MARKETING & AUTOMATION

ADVANTAGES

Leads don't "get cold"

Bridging long
communication gaps

Uses all opportunities

The system monitors the potentials and
independently initiates appropriate
steps

Content Marketing

Provide the customer with optimal
knowledge when he needs it

Fewer errors

No task is overlooked, no process is
interrupted by illness

Time saving

All processes that are executed
repeatedly without change can be
automated

ANALYSIS & KPI DASHBOARDS

USE CASES

1

On the morning of a trade fair day, the evaluations of the previous day are already available

2

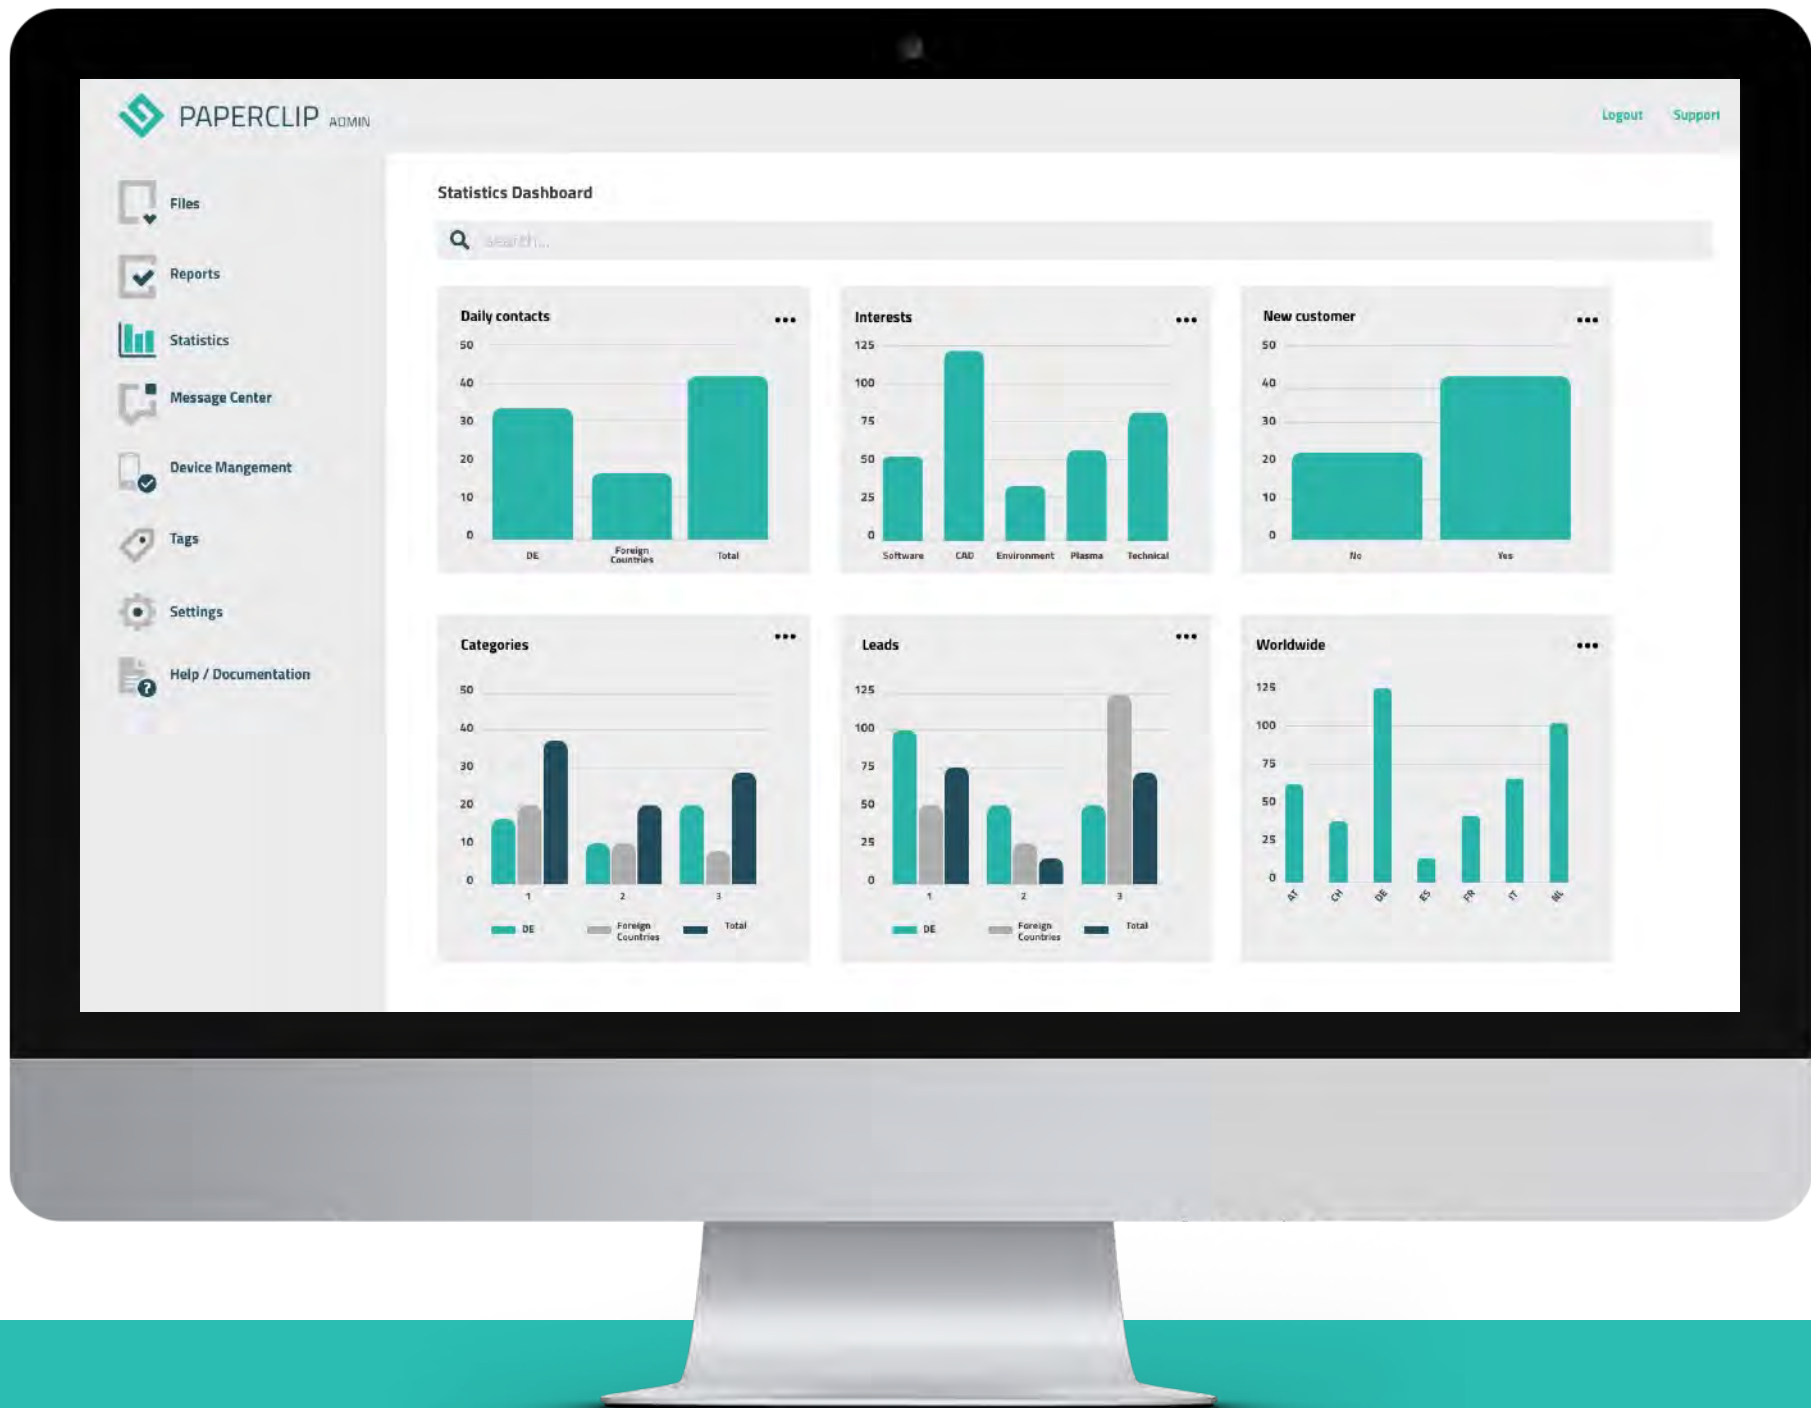

How often was which document shared and how often opened by customers?

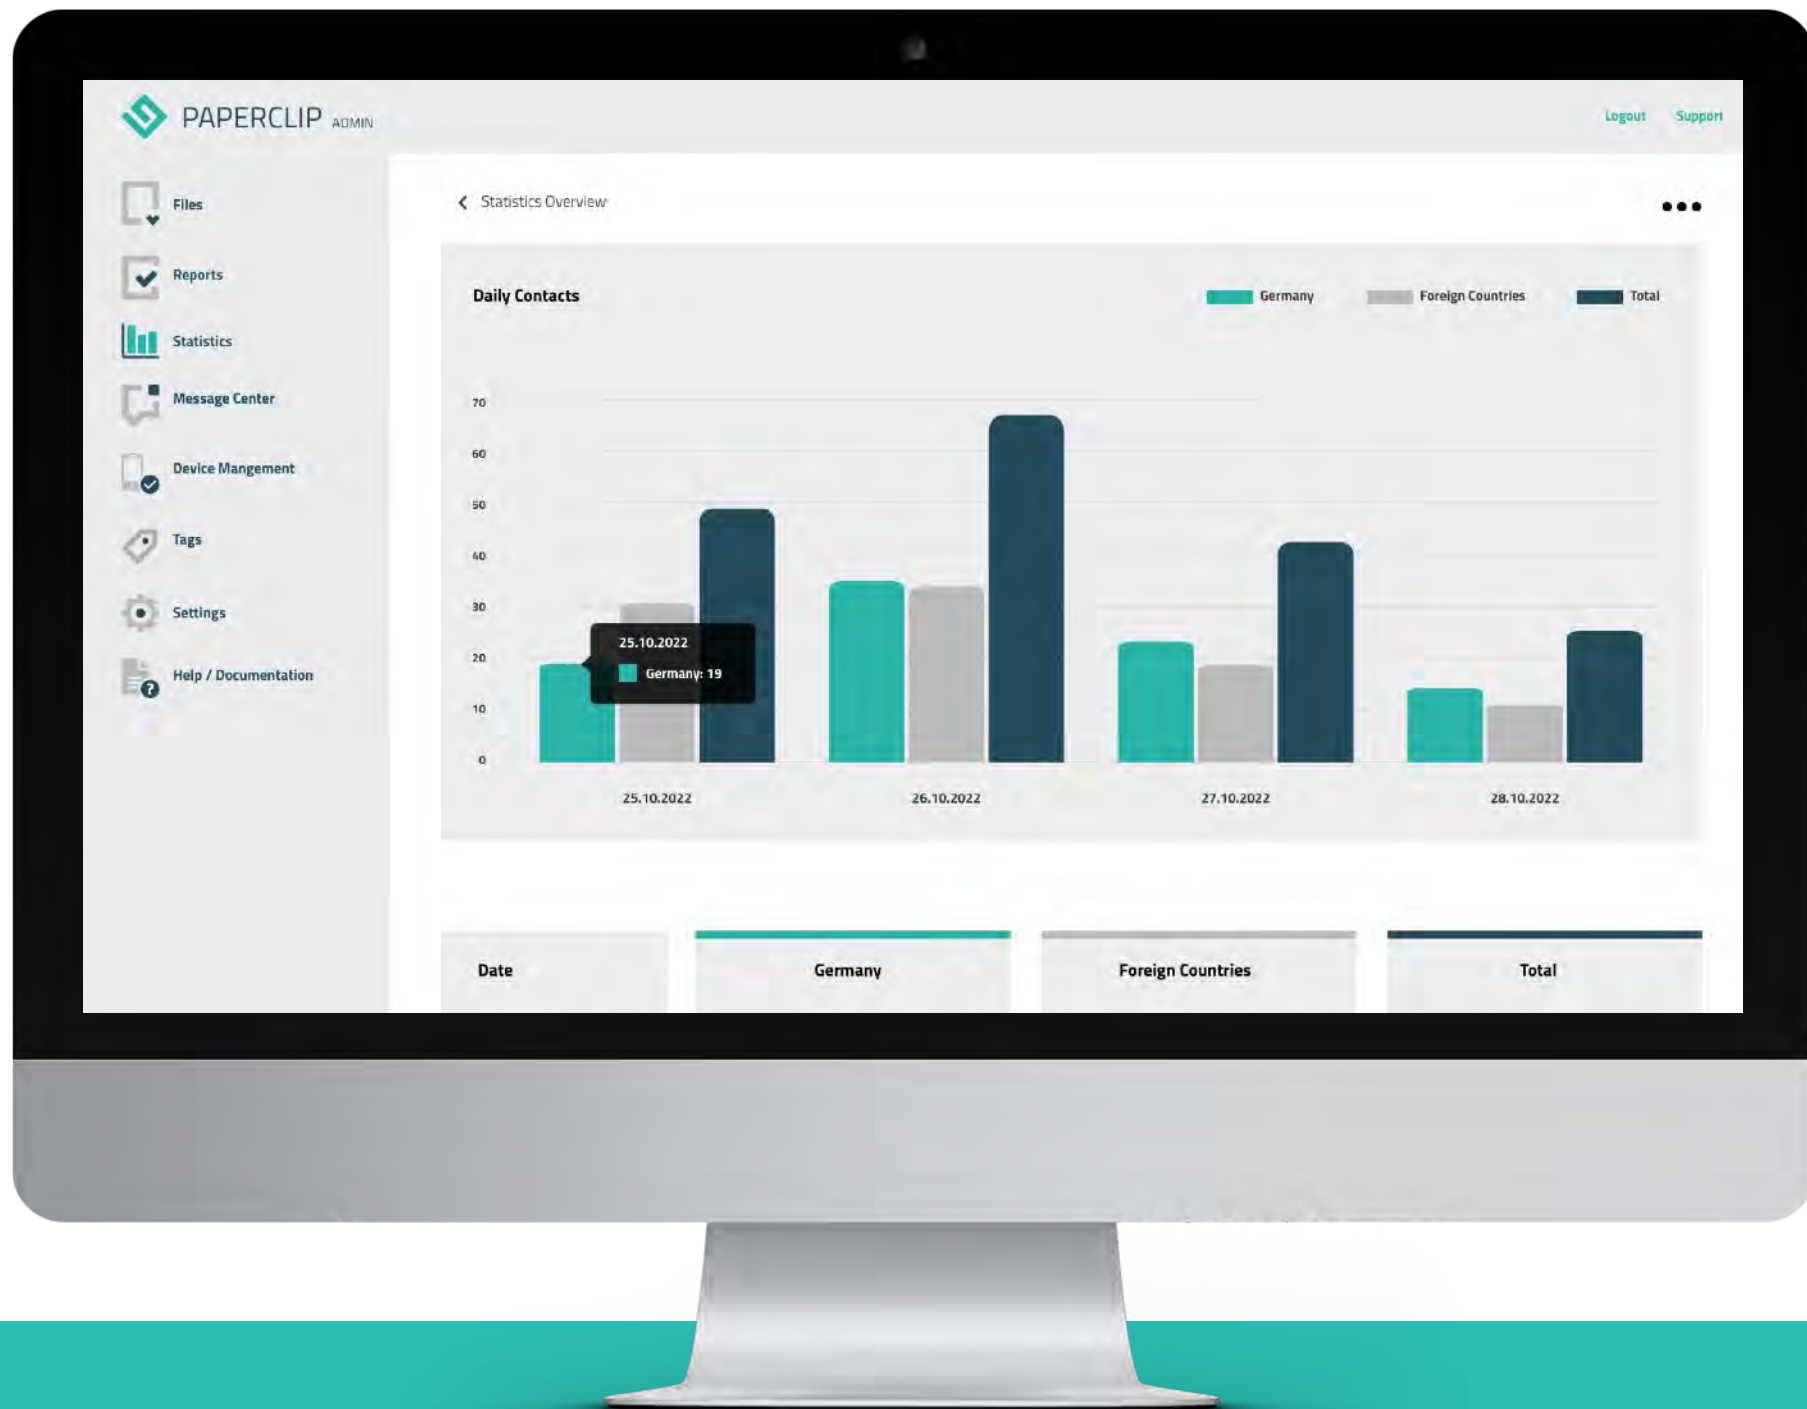

3

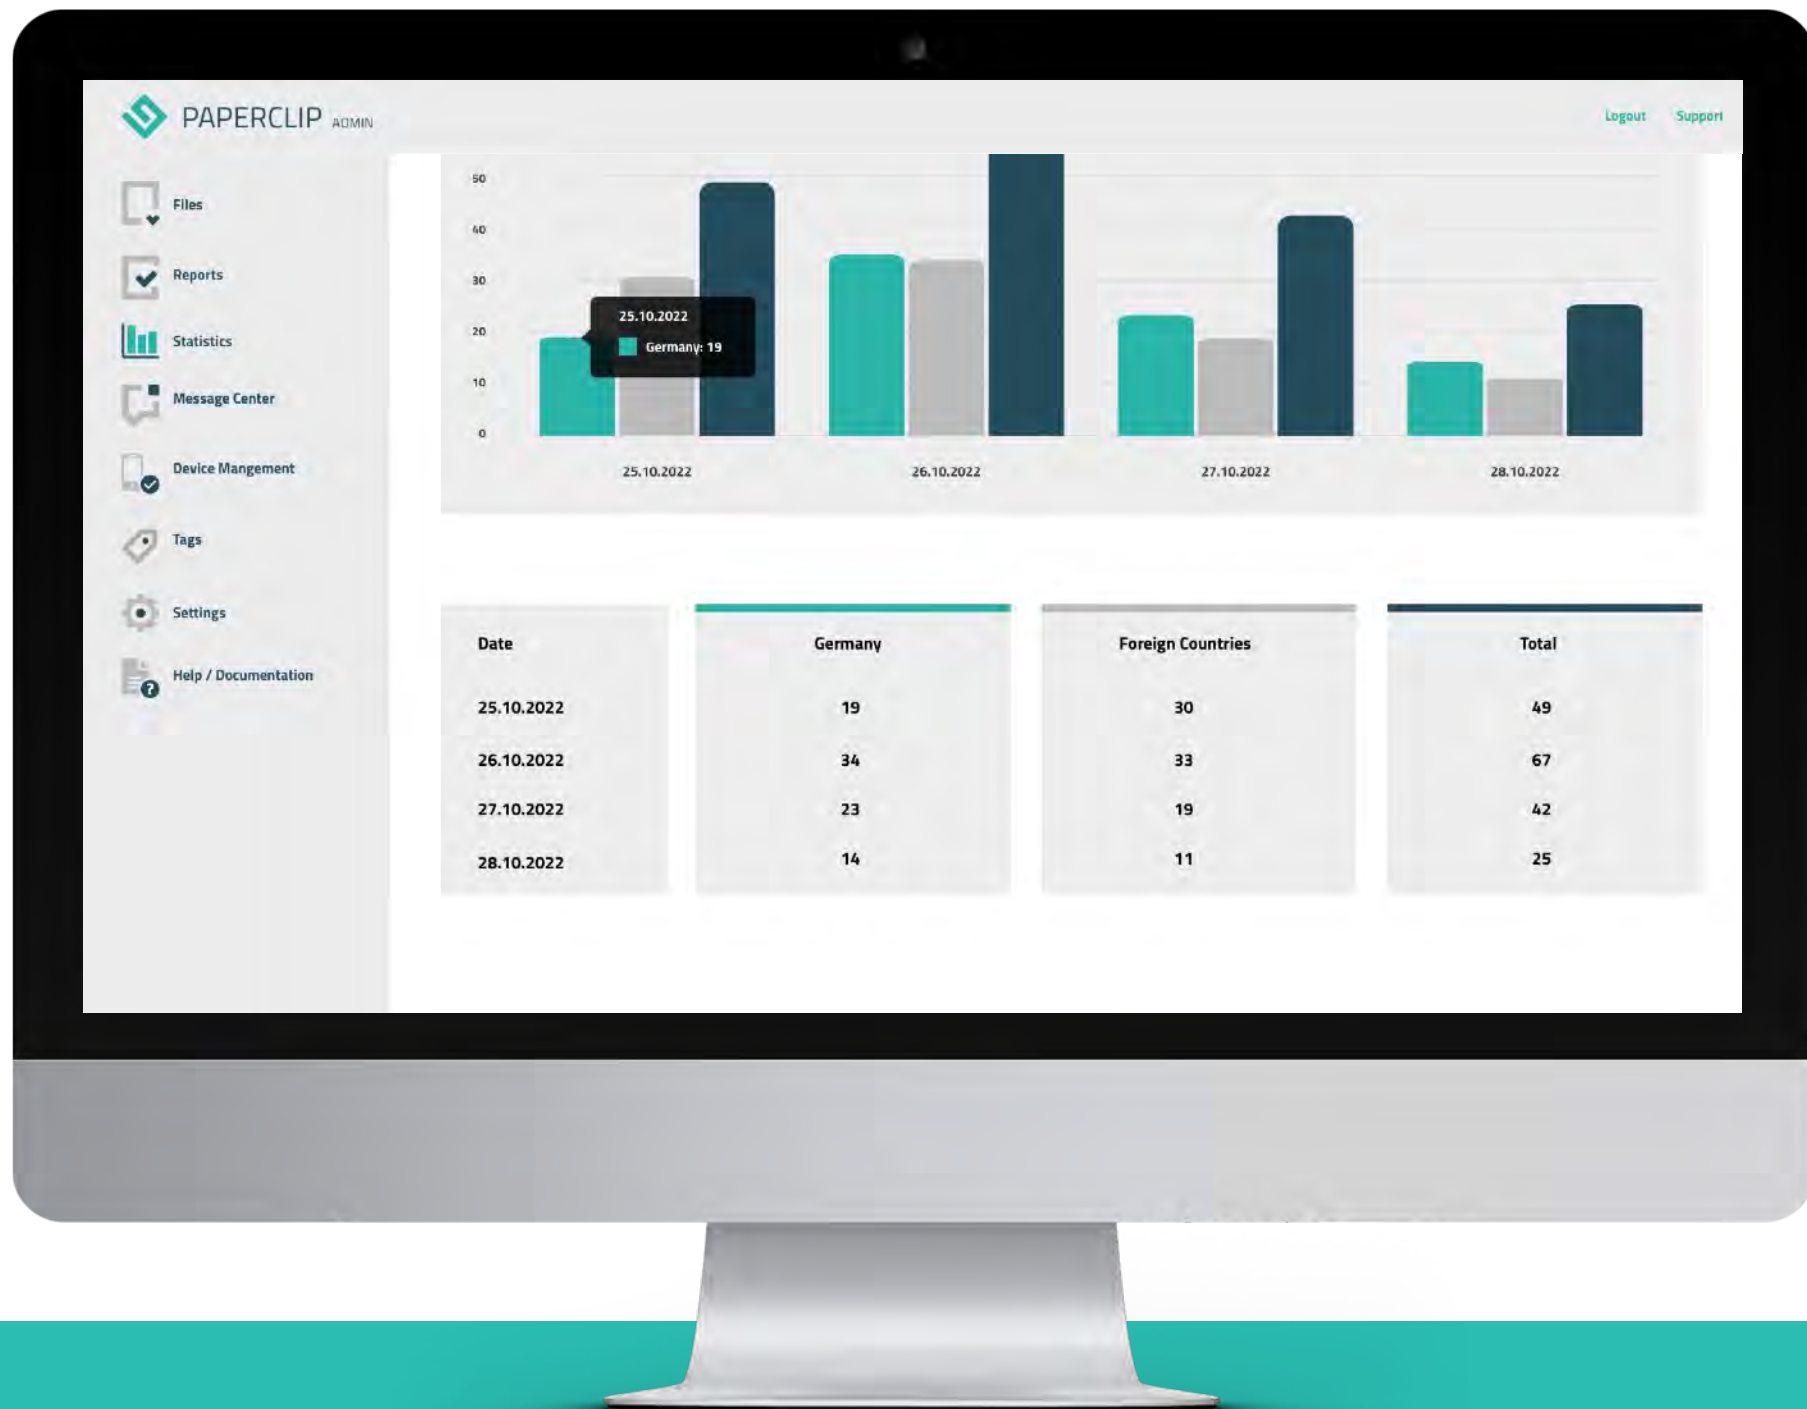

How successful was which trade show appearance?

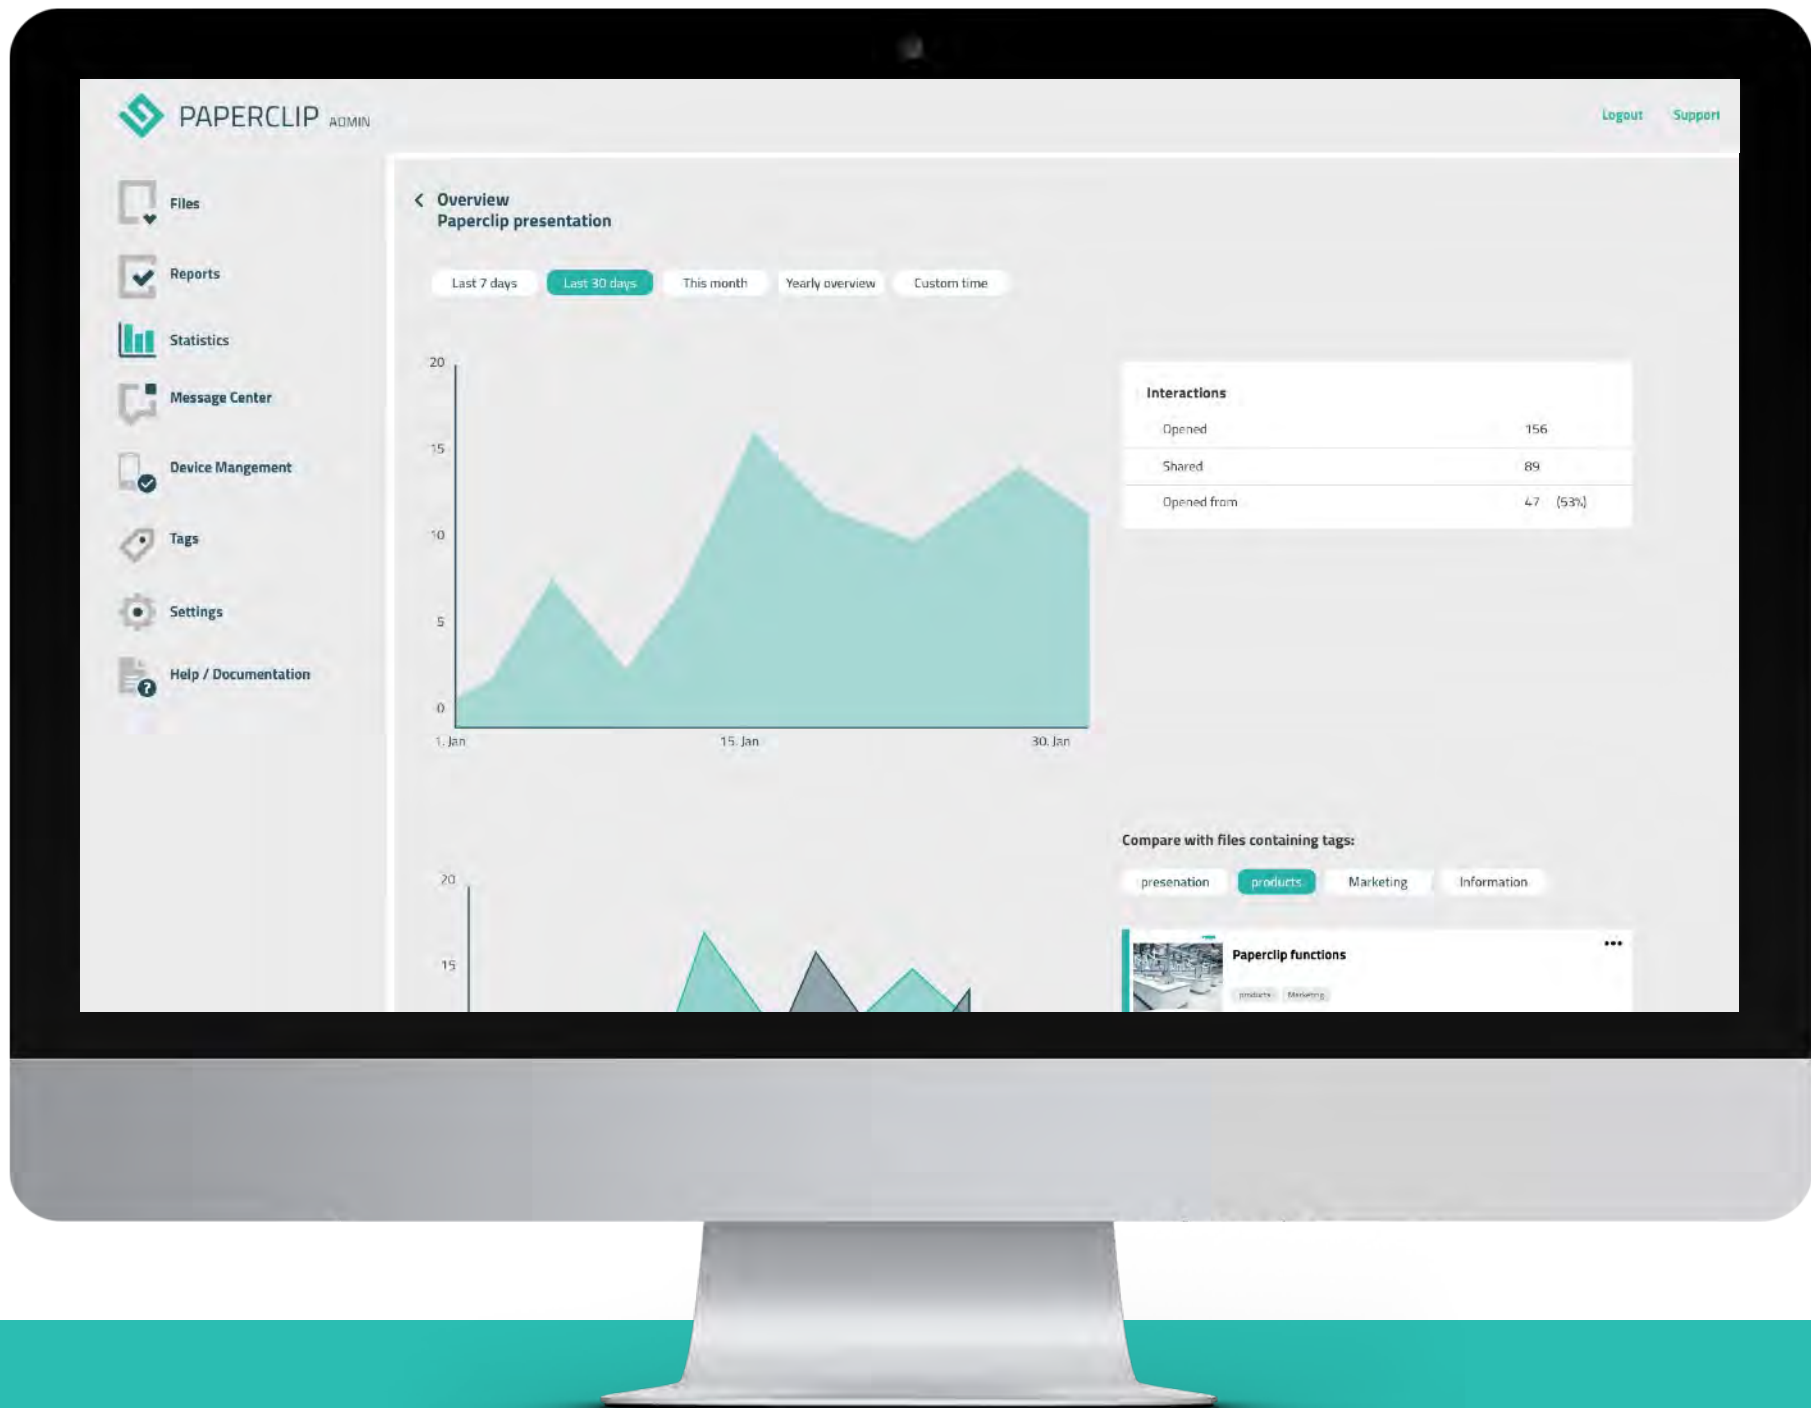

4

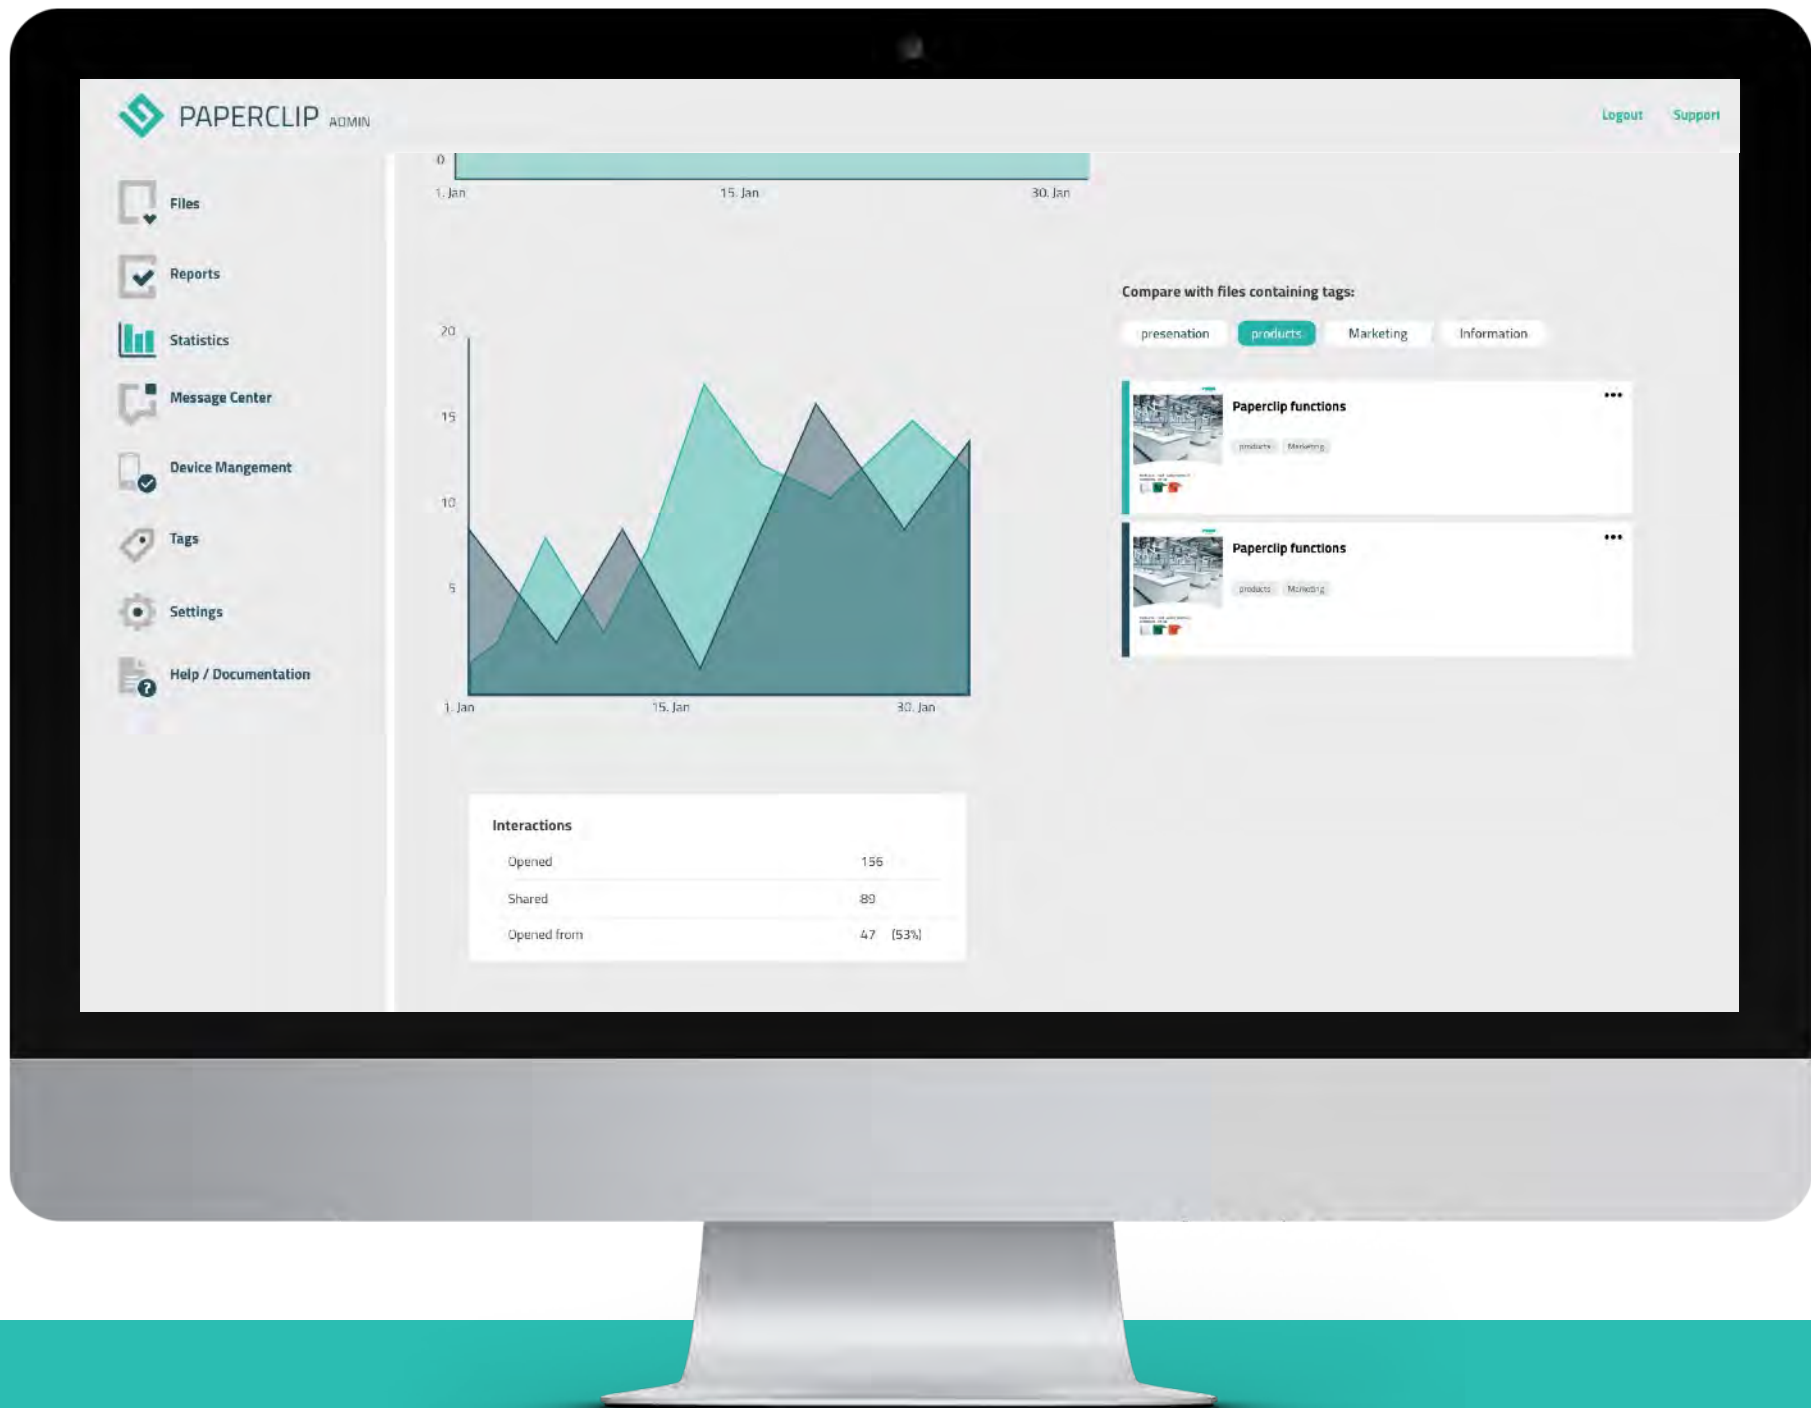

Who is our target group and what are their needs?

ANALYSIS & KPI DASHBOARDS

ADVANTAGES

Clear target groups

The target group can be clearly defined and their needs are known.

Real time analysis

Accurate to the second and up-to-date, data can be analyzed.

Overview

With the dashboard, all data are always visible at a glance.

Configurable

You design your own dashboard with the values and layout you need.

Build, measure, plan

Without measured values, no iterative strategy development can take place.
