

4715 Power Rust Dissolver

Product description

Power Rust Remover mineral oil free is ideal for loosening and cleaning rusted connections and surfaces. The new KENA®-technology penetrates deeply, encrustations are fractured and released. The concentrate formula allows for long penetrating action over several hours. Very economical and free of mineral oil.

Advantages

- Unique active formula
- Economical in use
- Dissolves rust and encrustations
- Environmentally friendly

Application fields

For fixed metal connections and rusted surfaces.

Application

1. Spray onto rusted connections / surfaces.
2. Depending on the degree of rust, allow to act up for 24 h. Work in with a brush or a towel.
3. Rinse with water or wipe off.
4. If necessary, repeat.

Note: May cause discoloration on surfaces or dissolve plastics. Check the suitability prior to use.
